Professional certification (computer technology) - Wikipedia

Professional certifications in computer technology are non-degree awards made to those who have achieved qualifications specified by a certifying authority. Depending on the particular certification, qualifications may include completing a course of study, proof of professional accomplishments, achieving a specified grade on an examination. The intention is to establish that an individual

What is the CompTIA A+ certification? - Knowledge base

What is the CompTIA A+ certification? A+ (A Plus) is an entry-level computer certification for PC computer service technicians. The exam is designed to certify the competency of entry-level PC computer service professionals in installing, maintaining, customizing, and operating personal computers.

CompTIA - Wikipedia

A+ certification represents entry-level competency as a computer technician and is a vendor neutral certification that covers various technologies and operating systems. By 2014, over one million people worldwide had earned A+ certification. [18]
