[Giambattista, 4e, College Physics \[Hardcover\] - amazon.com](#)

I found the book to be a bit difficult to understand. It relies too much on math formulas, without enough pictures, graphics and descriptions. The problems at the back of every chapter are good, but I haven't found the text to be helpful at all. It seems to be a good book, but it wasn't the right choice for a basic college physics course.
