[ThoughtCo](#)

RC flight simulation software comes with models of RC airplanes and flying sites that help you virtually recreate RC flying conditions. But part of the RC flying experience is the tools you use to control the aircraft your radio controller.

[Open Radio Control - BritishIdeas](#)

Because the output from the Open Radio Control system is a PPM signal, which is widely used, it is possible to send this to a flight simulator such as FMS. I have tested it using a PIC-based serial cable. Don't forget to run the calibration process in the flight simulator. I recommend using a flight simulator to practice using the Nunchuk.
