### **Renewable Energy Sources Act BMWi**

The 2017 Renewable Energy Sources Act is anchoring the energy transition on a cross-border basis: auctions for funding for renewable energy are now to be opened up to other countries: 5% of new renewables capacity to be installed each year will be opened up to installations in other European Member States (approx. 300 megawatts/year). The cross-border auctions will take place in addition to the national auctions, which are only open to installations located in Germany.

### **Importance of Renewable Energy and Types of Renewable**

In addition to tidal energy, there's the energy of the ocean's waves, which are driven by both the tides and the winds. The sun also warms the surface of the ocean more than the ocean depths, creating a temperature difference that can be used as an energy source. All these forms of ocean energy can be used to produce electricity.
