[Trading System Rules Following the Trend](#)

I would recommend trading all markets with the same rules. That of course doesn't prevent you from making rules that adapt to term structure, volatility, trends etc. Making a rules that says Trade these parameters for Corn is a bad idea. Making rules that adapt to market characteristics could make sense.

[Trend Trading Strategies, Indicators and Systems](#)

All of these can offer trading opportunities, if you spot them at the right time. One of the things which trend trading offers is a clear guide on where you can place stop losses. As a trend develops, the last low or high is an obvious place to get a stop in. Because if price reverses past them, the trend could be over.
